INVESTMENT IN SECURITIES

WEDNESDAYS

11 LECTURES

This Course has been designed to give the uninitiated a working knowledge of investment principles and practices. The Course is suitable either for the person who knows little or nothing about investment, or for the person who is already an investor and wishes to learn more about the subject.

The Course describes and analyses the various types of securities available in Canada and discusses such topics as the development of an investment programme, the management of the investment portfolio and the interpretation and use of financial statements.

The Course is given in co-operation with the Education Committee of the Investment Dealers' Association of Canada, and has been offered successfully to large enrolments for the past eight years. The lecturers are men of practical experience, thoroughly conversant with their topics and have been chosen from well-known Toronto investment houses.

There will be motion pictures and question periods throughout the Course. Those who enrol will be able to invite their friends to the final lecture, which will take the form of a panel night with prominent members of the Investment Dealers' Association discussing investment problems and answering questions accumulated during the Course.

COURSE CHAIRMAN: W. S. Annett,
Assistant Director of Education,
Investment Dealers' Association of
Canada.
